Let It GROW!

To the Tune of "Let it Snow" December 25th, 2021 By Ruth M. Rose

Oh, the Season Outside is Freezing-
But the Snow To Come—Quite Pleasing-
And we're dashing Fast--- To and Fro--

Seeds to Sow-
Plants to Grow-
Less to MOW!

There's something to learn each minute-
About Nature-- So Infinite-
It's TIME to get up and GO-

Seeds to Sow-
Plants to Grow-
Less to MOW!

When the World wakes up with Sunlight-
Turf Grass we will now try to TRANSFORM!
And Invasives continue to Fight--
All the day long we'll be WARM!

In the Greenhouse we now are sowing-
Native Seeds for Outside Winter Growing--
Reading books—Native Plants to get to know--

10 below-
Sharpen Hoes-
Plan A Meadow!

Oh the Rainbow Shines in our Ice Show-
In Our Backpacks a Mixed Seed Combo--
We Strap On our Snowshoes and GO!

Seeds to THROW-
Wind will BLOW-
Please, seeds GROW!

We have Wild Blue Indigo-
Cuttings of Prairie, Black, and Pussy Willow--
Seeds that need several years—Buds grow SLOW-
Patience-- and Photos-- will SHOW!

We see Rabbits, Birds, Deer and Red Fox-
While sowing Grasses-and Forbs-Like Prairie Phlox-
Our Cheeks have a Bright Red Glow-

Let Them FLOW-
Seeds—PLEASE Grow!—
WELCOME!---SNOW!

Now we KNOW-
Beneath the SNOW-
WILD GROWS!!!!
