

# Weekly Wild Wednesday

December 7<sup>th</sup>, 2022

*What a Week of "Seed-Sonal Celebrations!"*

We did a LOT of foraging in Nature, while editing out everything that had grown a little *TOO* Wild in our spaces! Greenery that was overhanging decks and stairs, WILD grapevine gone crazy ([Click HERE](#)) and lots of Cedar that is Native but very aggressive and happens to have gorgeous blue berries—Naturally! Also we had pods from harvested SEEDS from the Seed Exchange! All were put to good use making decorations and celebrating with FOOD and FUN at Loess Hills Wild Ones Seeds-N-All Party! Thank you to EVERYONE!

There was a LOT of LAUGHTER and FUN involved! Our Thanks to Danielle-- and everyone else—for providing the LAUGHTER!

We finished personal creations for each and every participant to take home.

Then we created ALL of THESE above for the...drum roll...  
**Winter Fun Day** coming up--  
**Saturday December 10<sup>th</sup> from 10AM to 2PM at the Dorothy Pecaut Nature Center!**

Winter Containers: Native Plants are the Best!

Many of us also took home greenery and Nature Harvests to fill our empty outdoor containers!  
 ←Click photo for Winter Container Ideas!!  
 Below, Coral created BEAUTY and brought us SEEDS for the Seed Library! Yippee!!!!

Mountain Mint, Cedar, and Blanket Flower made this wreath really stand out as a Native Masterpiece!

If YOU want to start growing more Native Plants in YOUR spaces, there are many options for Direct Seeding this Winter, or WinterSowing in containers outdoors! Marcie gave us a Hands-On WinterSowing Presentation, and if you are in the Siouxland Area and need some containers, we have many to share!

We recycled many small squares, larger rounds, and, below, LaVone is supplying lots of water bottles to use as well! Contact us if you want to get some containers or seeds! Then a couple of years from now you can EDIT your OWN spaces for your Winter Containers, wreaths, or swags! If you weren't able to attend the Winter Sowing Demonstration, here is a step by step from GrowitBuildiT! [Click for Details!](#) →

Six jugs and four trays done! Part-way through 2020!

### Materials Required

- A clean milk jugs, or plastic container/pot with covered dome
- Scissors or sharp knife
- Basic potting soil
- Watering can or sprayer
- Seeds

Thanks, LaVone, and we look forward to sharing the Water Bottle growing supplies you shared!

If any of you have clean milk jugs or water bottles to share, or any growing supplies you need to get out of YOUR space, we are happy to store them and share them with others!

In case your Winter needs a little Garden Fix, here's an awesome list of various things—both indoor and outdoor—that you can do while dreaming and preparing for Spring!
