

# Weekly Wild Wednesday

May 21<sup>st</sup>, 2025

What a Week of "Plant Sales Success!"

The plants arrived in GREAT shape, and we were so excited to unpack them and get them organized!  
Our weather went from 90+, to 39-- with wind and rain-- in 12 hours!

Plants are here!

The plants did NOT care!  
Tom and Cheri graciously moved the entire event INDOORS for us--  
because we were COLD! It was wonderful!

Day 1- Lilly had VERY little room in her Secret Garden Spot.

By Day 2, she could stretch right out between completing her many volunteer tasks!

The Grants Awards went perfectly, and the recipients were so excited to select their plants, with the helping hands of our many experts!

We can hardly wait to see their progress as Wild Plant Parents!

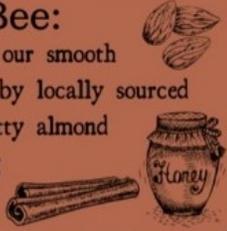

Grow, Grants!

**The Sweet and Savory Snacks were a huge hit!!**

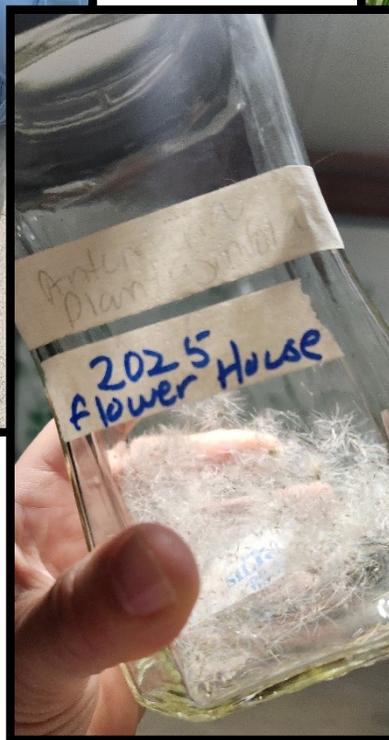

**Thank you, Food Donors!!**

New plants and old friends alike were blooming and going to seed at 'The Flower House', 'Sylvia's Garden', and at the 'Wild Mess in Progress'!

← Dawn harvested Purry Toes Seeds!

← We hope these Showy Penstemon at Sylvia's are pollinated so we can share the seeds this Winter! We planned on growing the seeds in the ground at 'The Flower House', but Mercedes scored actual plants at the Plant Sale, so we will have seeds to SHARE in The Seed Library!

Lady's Slippers at the 'Wild Mess in Progress'!

Wooooooooowww!!! From Hillside Nursery!

*Wishing you a week filled with "Wild New Plant Parenting!"*
