

Weekly Wild Wednesday

August 20th, 2025

What a Week of "Summer Tours!"

Welcome, indeed!

Danielle, Lilly, and Jimmy welcomed all of us to their tour of the 'Metzger Gardens'! There were over 50 visitors of the human variety, and many Wild Things visiting the gardens gorgeous Native blooms!

We laughed and laughed at Danielle's *Wanda the Watcher!* What a clever idea! →

Above, the textures and colors of Danielle's combinations of Native plants, stone, and pathways really made an impact! Wooooowwww!!!

← Visitors and friends got to take home some Wild Columbine as their Wee Giftie of the day!

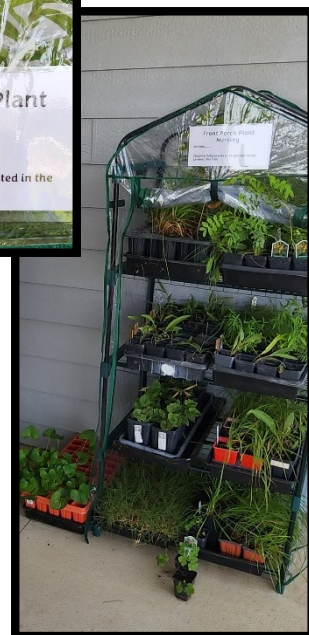

What an awesome treat!

Photos by Dawn, Maria, and Ruth

Wherever we looked, there was Beauty and Buzz! (And BIRDS)

We loved the Front Porch Nursery with the sleeping baby plants!

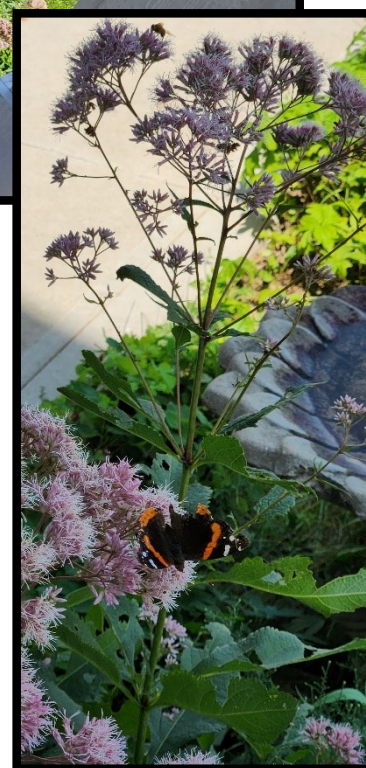

Below, the multiple gardens were enjoyed by all! And the large, seeded meadow (behind Sara) is in full bloom!

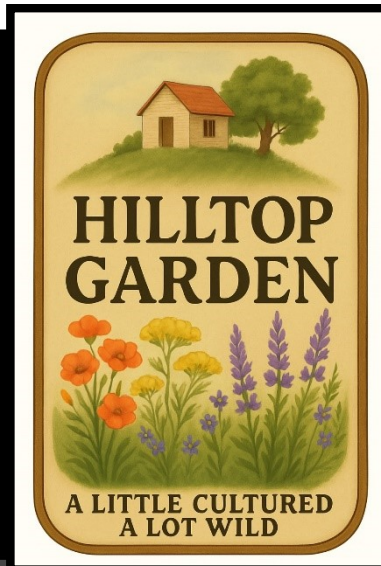

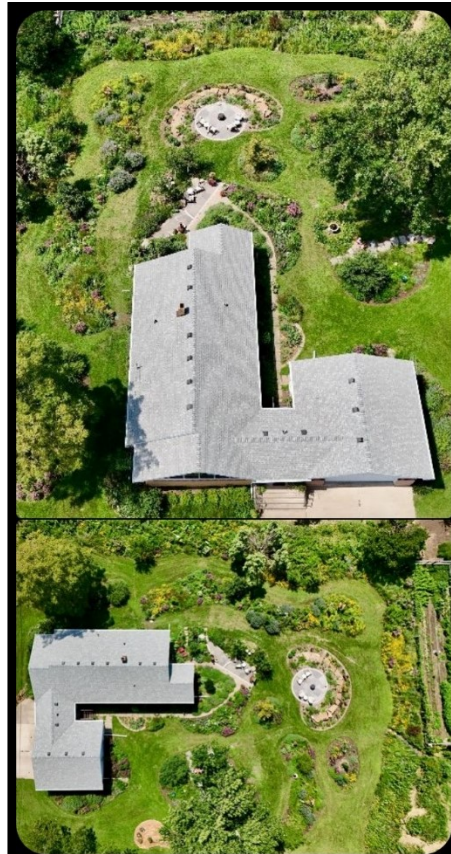

THANK YOU to everyone who visited these fabulous gardens!

HUGE THANKS to the Metzger Family for hosting this incredible tour!!

We enjoyed this garden tour so much!

Tom and Cheri had a drone photographer over at the Hilltop Gardens! We sure wish we had a photo of the bare lawns and brome from 2020 to compare to these overhead views! What a great idea!

I think this is our favorite picture that he took.

Chad is available for YOUR home and gardens!

We had a drone photographer come and do these photos today.

Dawn, Bill, Jody, Dotty, and Nicki used wild Native Plants and Herbs to brew their next batch of beer for the "Wild Things Welcome event September 9th at 6PM! Click photo above for details!

Dotty shared the progress on the gardens that Loess Hills Wild Ones helped to install several years ago! Grow Wild!!
