

2026 Spring Plant Sale – Plant Information

Common Name	Scientific Name	Source	Bloom Time	Typical Height	Growing Conditions	Notes
'Blue Fortune' Hyssop	Agastache	BlueBird	Mid-late summer	24–36 in	Full sun; well-drained soil; drought tolerant once established	
Eastern Bluestar	Amsonia tabernaemontana	BlueBird	Late spring	24–36 in	Full sun to partial shade; average moisture; adaptable soils	
Pasque Flower	Anemone patens	Coral	Early spring	6–12 in	Full sun; dry to medium, well-drained soils	
'Rubra' Pussy Toes	Antennaria dioica	BlueBird	Spring	4–8 in	Full sun; dry, sandy or rocky soils	
Wild Columbine	Aquilegia canadensis	Coral	Late spring	18–24 in	Partial shade; medium moisture; well-drained soils	
Prairie Milkweed	Asclepias sullivantii	Agrecol	Early–mid summer	30–48 in	Full sun; moist to mesic prairie soils	
Butterfly Milkweed	Asclepias tuberosa	Agrecol	Summer	18–30 in	Full sun; dry to medium, well-drained soils	
Blue False Indigo	Baptisia australis	Agrecol	Late spring–early summer	36–48 in	Full sun; deep, well-drained soils	
Purple Poppy Mallow	Callirhoe involucrata	Coral	Late spring–summer	6–12 in (spreading)	Full sun; dry, sandy or gravelly soils	

'Appalachica' Appalachian Sedge	<i>Carex appalachica</i>	BlueBird	Spring	12–18 in	Partial shade; woodland soils; medium moisture	
Rosy Sedge / Curly Wood Sedge	<i>Carex rosea</i>	BlueBird	Spring	12–24 in	Partial shade; moist, well-drained woodland soils	
Lanceleaf Coreopsis	<i>Coreopsis lanceolata</i>	Agrecol	Late spring–summer	12–24 in	Full sun; dry to medium soils	
Pale Purple Coneflower	<i>Echinacea pallida</i>	Agrecol	Early–mid summer	24–36 in	Full sun; dry to medium prairie soils	
Wild Strawberry	<i>Fragaria virginiana</i>	Agrecol	Spring	6–12 in (spreading)	Full sun to part shade; medium moisture	
Wild Geranium	<i>Geranium maculatum</i>	Agrecol	Spring	12–24 in	Partial shade; rich, moist woodland soils	
Prairie Smoke	<i>Geum triflorum</i>	Coral	Late spring	12–18 in	Full sun; dry, well-drained soils	
Alumroot / Coral Bells	<i>Heuchera richardsonii</i>	Agrecol	Late spring	12–18 in	Partial shade; well-drained soils	
Path Rush / Poverty Rush	<i>Juncus tenuis</i>	Agrecol	Summer	12–24 in	Full sun to shade; disturbed or compacted soils	
June Grass	<i>Koeleria macrantha</i>	Coral	Late spring	12–24 in	Full sun; dry, well-drained soils	
Sundial Lupine	<i>Lupinus perennis</i>	Agrecol	Late spring	12–24 in	Full sun; sandy, well-drained soils	

Bradbury's Bee Balm	<i>Monarda bradburiana</i>	Agrecol	Spring	12–24 in	Full sun to part shade; dry to medium soils	
Missouri Primrose	<i>Oenothera macrocarpa</i>	BlueBird	Early summer	6–12 in (spreading)	Full sun; dry, rocky soils	
Foxglove Beardtongue	<i>Penstemon digitalis</i>	Agrecol	Late spring–early summer	24–36 in	Full sun; medium, well-drained soils	
Prairie Phlox	<i>Phlox pilosa</i>	Agrecol	Spring	12–18 in	Full sun; medium soils	
'Blue' & 'Pink' Creeping Phlox	<i>Phlox subulata</i>	BlueBird	Early spring	4–6 in (mat-forming)	Full sun; dry, well-drained soils	
Jacob's Ladder	<i>Polemonium reptans</i>	Agrecol	Spring	12–18 in	Partial shade; moist, rich soils	
Short-toothed Mountain Mint	<i>Pycnanthemum muticum</i>	BlueBird	Summer	24–36 in	Full sun to part shade; medium to moist soils	
Orange Coneflower	<i>Rudbeckia fulgida</i> var. <i>speciosa</i>	Agrecol	Summer–early fall	24–36 in	Full sun; dry to medium soils	
Wild Petunia	<i>Ruellia humilis</i>	Agrecol	Summer	9–18 in	Full sun; dry to medium soils	
'Fireworks' Goldenrod	<i>Solidago rugosa</i>	BlueBird	Late summer–fall	36–60 in	Full sun; adaptable, average soils	
Prairie Dropseed	<i>Sporobolus heterolepis</i>	Agrecol	Late summer	18–30 in	Full sun; dry to medium soils	

Prairie Spiderwort	<i>Tradescantia occidentalis</i>	Coral	Late spring-summer	18–30 in	Full sun; medium moisture soils	
Heart-leaved Golden Alexanders	<i>Zizia aptera</i>	Agrecol	Spring	12–24 in	Full sun to part shade; moist soils
